Thiruvenkatesh

Python Full Stack Developer | Prompt Engineering | AI-Assisted Development

santhiyavenki0@gmail.com +91 7867010289 Coimbatore, Tamil nadu, India

portfolio-website.com www.linkedin.com github.com

PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience developing and deploying production web applications using **Python, Django, Django REST Framework, React.js, JavaScript, and MySQL.** Experienced in **REST API development, authentication, database-driven applications, responsive UI development, VPS deployment, SEO/GEO optimization, and production debugging**. Skilled in **AI-assisted development and structured prompt engineering for code generation, debugging, technical analysis,** and workflow optimization.

TECHNICAL SKILLS

Frontend Technologies
JavaScript (ES6+), React.js, React Router, Vite, HTML5, CSS3, Bootstrap 5, Responsive Web Design

Databases & Cloud
MySQL, SQLite, PostgreSQL, Supabase

Hosting, Deployment & SEO
Hostinger, Hostinger VPS, Domain Management, SSL Configuration, SEO, GEO (Generative Engine Optimization), Google Search Console

Languages & Backend
Python, Django, Django REST Framework, Django ORM, REST APIs, Object-Oriented Programming (OOP)

Tools & Testing
Git, GitHub, VS Code, PyCharm, Postman, Render, Railway, Netlify, Vercel, Google Cloud, Web3Forms

AI & Prompt Engineering
Prompt Engineering, Generative AI, AI-Assisted Development, Structured Prompt Design, Prompt Iteration & Refinement, AI-Assisted Debugging

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Intern April 2026 – Present | Coimbatore
Profenaa Infotech

- Developed full-stack web applications using Python, Django, React (Vite), JavaScript, and MySQL.
- Designed and integrated REST APIs to establish secure communication between frontend and backend systems.
- Implemented authentication, form validation, password hashing, database operations, and secure data persistence using Django ORM.
- Debugged and resolved frontend, backend, API, validation, and production-related issues using browser developer tools and Postman.
- Deployed and maintained client applications on Hostinger VPS, including domain, web server, and SSL configuration.
- Optimized production websites for performance, accessibility, SEO, and GEO.
- Used AI-assisted development workflows to generate, analyze, refine, and troubleshoot backend implementation drafts for integration with the backend team.

Technologies: Python, Django, React (Vite), HTML5, CSS3, JavaScript, MySQL, Git, GitHub, Hostinger, Hostinger VPS, REST API, SEO, GEO, Web3 forms

EDUCATION & TRAINING

Python Full Stack Development Training September 2025 – March 2026 | Coimbatore
IDM Techpark

- Completed intensive training in Python, Django, Django REST Framework, React.js, JavaScript, MySQL, and responsive web development.
- Developed hands-on applications covering Django MTV architecture, REST API integration, authentication, database operations, and frontend state management.
- Practiced Git/GitHub workflows, API testing, debugging, and secure application deployment through project-based development.

B.E Computer Science & Engineering 2021 – 2025 | Karaikudi
KIT & KIM Technical Campus, Anna University
CGPA: 8.5

KEY PROJECTS & ACCOMPLISHMENTS

PyBot AI Solutions (Client Project) June 2026 – August 2026
Project-link: https://pybotaisolutions.com/
Technologies: React (Vite), Django, MySQL, Web3 Forms, Hostinger
- Engineered a responsive frontend architecture using React and Vite, linked dynamically to a Django REST API backend.
- Built a secure customer registration and login module utilizing Django's cryptographic password hashing.
- Developed features including dynamic, multi-step application forms and an automated certificate download system.
- Integrated a MySQL database and optimized metadata configurations to boost platform SEO and GEO metrics.

School Website (Client Project) April 2026 – June 2026
Project-link: https://www.getzzreadykidzzschool.com/
Technologies: HTML5, CSS3, JavaScript, Web3Forms Description:
- Designed and deployed a mobile-first, fully responsive marketing and administration website for an educational client.
- Integrated Web3Forms API to process student admission inquiries, establishing instant automated email notifications.
- Optimized page performance and structure to improve loading speed and search-engine visibility.

Student & Staff Management System — Internal Project August 2026 – October 2026
Technologies: HTML5 | CSS3 | JavaScript | Bootstrap | REST API | MySQL
- Designed and developed the complete responsive frontend interface for a comprehensive Student Management System.
- Built student and admin dashboard interfaces covering attendance, leave management, projects, certificates, performance, notifications, feedback, referrals, and account management.
- Integrated frontend workflows with REST API endpoints provided by the backend system.
- Worked with an AI-assisted development workflow to generate, analyze, refine, and troubleshoot backend functionality before handing it over for backend integration.
- Collaborated with backend development to align API requirements, request/response structures, validation flows, and frontend integration.

E-Commerce Web Application — Personal Project November 2025 – February 2026
Technologies: Python | Django | MySQL | HTML5 | CSS3 | JavaScript | Bootstrap | Razorpay
- Implemented secure user authentication, authorization, and customer account management.
- Developed a dynamic product catalog with product details, pricing, images, and product management.
- Built complete shopping workflows including cart management, Buy Now, checkout, and order processing.
- Integrated Razorpay payment gateway for online payment processing and implemented order status and cancellation workflows.
- Designed responsive customer and administrative interfaces using HTML, CSS, JavaScript, and Bootstrap.

CORE COMPETENCIES

Python | Django | React | REST API Development | Responsive Web Design | Database Design | Authentication & Authorization | Password Hashing | MySQL | Git & GitHub | Website Deployment | SEO | GEO | Debugging | Agile Development

CERTIFICATIONS & COURSEWORK

Python Full Stack Development
IDM Techpark

React.js & Django Web Development

SEO & GEO Website Optimization

ADDITIONAL INFORMATION

Languages
English (Professional), Tamil (Native)

Availability
Available from October 2026

Technical Traits
Clean code practices, agile development workflow, cross-functional communication, browser developer tools debugging.
